**Caution:**  
**Patch Test Instructions:**  
Mix a small amount of neem oil with coconut oil or another carrier oil. Apply this mixture to a small area on the back of your hand. Leave it for 24 hours. Watch for signs of irritation, such as redness, swelling, or itching. If no adverse reaction occurs within 24 hours, it is safe to use neem oil on larger areas of your body. If irritation develops, stop using neem oil and avoid applying it to your skin in the future.

## COMPANY OVERVIEW

Beena Corporation is a leading, originally Indian-based company deeply committed to human health values and environmental protection. With over 25 years of dedicated research, our company focuses on developing natural alternatives to chemical pesticides and synthetic products.

Our mission centres on replacing harmful pesticides with naturally available resources, particularly utilising **Azadirachta indica (Neem)** and **Pongamia pinnata (Karanj)** trees. These plants are known by various names across different regions - in Kenyan languages, Neem is called "Kiswahili" and "Mwarubaini," meaning "**the tree of forty cures**," reflecting its numerous medicinal uses and reputation as a miracle tree.

We recognise that agriculture and health are vital sectors for every citizen. However, heavy pesticide use in agriculture has significantly affected food grain quality, contributing to serious health issues like diabetes, blood pressure problems, and cancer. Beena Corporation is dedicated to educating people about sustainable farming methods and providing natural solutions that protect both crops and human health.

## PRODUCT PORTFOLIO

### 1. Neem Oil & Karanj Oil (Water Soluble)

High-quality water-soluble neem and karanj oils are designed for direct mixing with water for foliar applications. These formulations provide comprehensive protection against:

- **Insect pests**
- **Borer pests**
- **Fungal diseases**
- **Bacterial diseases**
- **Viral Diseases**
- **Nematode Infection**
- **Ovicidal**

#### Key Benefits:

- ☒ Zero residual harmful effects
- ☒ Low evaporation rate in hot climates
- ☒ Extended positive effect on plants
- ☒ Stimulates photosynthesis and vegetative growth
- ☒ Safe for natural pollinators (honeybees, ladybird beetles, Chrysopa)
- ☒ Cost-effective compared to chemical alternatives

The oil-based formulation, if applied with other pesticides, has excellent staying power, providing **2-3 times longer protection** than conventional sole pesticides, ultimately reducing overall application costs of pesticides.

Recommended dosage: 50mL / 15 Litres of Water

## **2. Soil Application Products**

### **Neem Oil (WS) & Karanj Oil (WS) for Soil Treatment**

Both oils can be applied directly to the soil to control:

- Soil-borne diseases
- Insect activity
- White grubs
- Fungi
- Nematodes

**The root system remains ovicidal and completely safe during treatment.**

**Recommended Dosage:** 4 litres per acre

## **3. Neem Powder - A Premium Soil Conditioner**

A carefully balanced mixture of neem seeds, leaves, twigs, and bark creates the ultimate soil conditioning solution.

### **Benefits:**

-  Protects plant root systems
-  Provides concentrated nutrition for plants
-  Increases soil carbon content
-  Improves soil aeration between particles
-  Acts as a natural soil conditioner
-  Enhances overall soil health

**Application Dosage:** 50 kg per acre

This multi-component formulation serves as both a soil protector and plant nutrient source, supporting long-term agricultural sustainability.

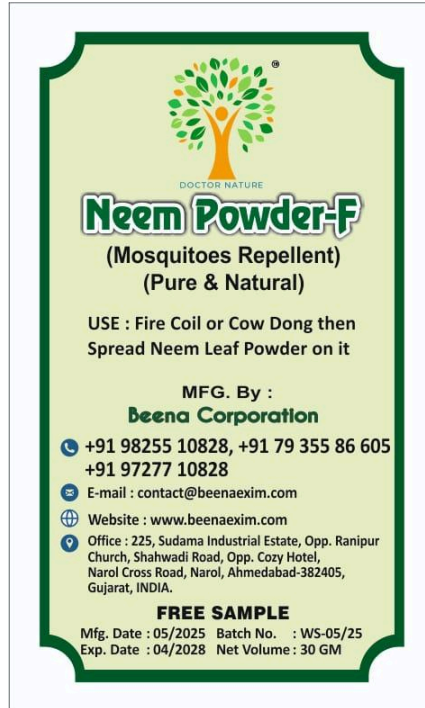

#### **4. Neem Powder F (Fumigation & Mosquito Repellent)**

Specially prepared neem powder is designed for fumigation purposes and natural pest control.

##### **Application Method:**

1. Mix **10 gm Neem Powder F** with **2 kg dry leaves**
2. Burn the mixture to create a fumigating effect
3. Effectively repels mosquitoes from treated areas

This natural fumigation method provides **chemical-free mosquito control** while maintaining environmental safety.

## HEALTH & PERSONAL CARE PRODUCTS

### 5. Cold Pressed Neem & Karanj Oil

Premium therapeutic oils are extracted using traditional cold-pressing methods to preserve maximum beneficial compounds.

### Applications:

- 🧑 Skin care and human health (Repel mosquitoes from the skin when applied)
- 🧑 Ayurvedic medicine
- 🧑 Cosmetic industry formulations
- 🧑 Naturopathy treatments
- 🧑 Therapeutic massage therapy

These oils demonstrate exceptional medicinal and herbal value, making them ideal for various health and wellness applications.

**Available Packaging:** 50 kg containers

### Caution: Patch Test Instructions:

Mix a small amount of neem oil with coconut oil or another carrier oil. Apply this mixture to a small area on the back of your hand. Leave it for 24 hours. Watch for signs of irritation, such as redness, swelling, or itching. If no adverse reaction occurs within 24 hours, it is safe to use neem oil on larger areas of your body. If irritation develops, stop using neem oil and avoid applying it to your skin in the future.

## 6. Aloe Vera Gel

Natural skin care solution, derived from carefully cultivated **Aloe barbadensis** plants.

### Benefits & Uses:

- ☀️ Exceptional moisturising properties
- ☀️ Direct application on hair, face, hands, and legs
- ☀️ Protection against harmful sun rays effects
- ☀️ Natural skin care without adverse side effects
- ☀️ Suitable for daily use

This pure aloe vera gel provides comprehensive skin care benefits while maintaining complete safety for all skin types.

**Available Packaging:** 50 kg containers

## HOUSEHOLD PRODUCTS

### 7. Neem Floor Cleaner (Non-Toxic)

Revolutionary household cleaning solution that's completely safe for children and pets.

#### Key Features:

- 🧹 Removes dirt and germs (bacteria, fungi, etc.)
- 🧹 Non-toxic and biodegradable
- 🧹 Safe for crawling babies and pets
- 🧹 No artificial fragrances
- 🧹 Natural insect repellent properties
- 🧹 Antiviral benefits for respiratory health
- 🧹 Cost-effective compared to chemical cleaners

The natural oil-based formulation provides lasting protection and natural shine while maintaining air quality benefits through neem's aromatic compounds.

**Recommended Usage:** 10 ml per 5 litres of water

<b>Aloe Vera Gel</b>	Topical application	As needed	Variable by area

## OUR COMMITMENT

Beena Corporation is committed to promoting **sustainable agriculture and health-conscious living** through innovative natural solutions. We believe in educating farmers and consumers about the benefits of natural alternatives while providing economically viable products that protect both human health and environmental integrity.

Our diverse product portfolio serves multiple market segments while maintaining consistent quality standards and proven effectiveness. As we continue our research and development efforts, Beena Corporation remains dedicated to being your trusted partner in sustainable development initiatives worldwide.

**Together, we can build a healthier future for agriculture, families, and the environment through the power of nature's own solutions.**

## **WHY CHOOSE BEENA CORPORATION?**

### **Natural & Safe**

All products are derived from natural sources with zero harmful residual effects.

### **25+ Years Experience**

Backed by extensive research and proven effectiveness in real-world applications.

### **Environmentally Friendly**

Supports sustainable agriculture while protecting beneficial insects and ecological balance.

### **Cost-Effective**

Long-lasting protection reduces application frequency and overall costs.

### **Family Safe**

All products are safe for children, pets, and family use.

### **Multi-Purpose Solutions**

One company provides solutions for agriculture, health, and household needs.
